Water Division Updates

Cypress Water Production Facility (CWPF) and Distribution System Update

Well No. 5 remains offline due to the detection of benzene and the construction project to upgrade the CWPF. The State's Division of Drinking Water (DDW) and the Los Angeles Regional Water Quality Control Board (RWQCB) have been investigating possible sources of benzene, and information is available at https://www.lomitawater.com/news/.

In October 2023, the City pumped 0.0 acre-feet of groundwater from Well No. 5. All drinking water was supplied with imported water from West Basin MWD. In October 2023, the City imported 162.2 acre-feet from West Basin MWD. The monthly water reports can be found at www.lomitawater.com/oversight/water-quality-reports/.

To protect the water system, all backflow devices within the service area are required to be tested once per year. In Lomita's water system there are approximately 160 backflow devices. In August, letters and backflow test forms were sent to the customers requiring the devices be tested and forms submitted by September 18. The City has received 90% of the test results. Second notices were sent with a late fee applied to the account in October. Following the third notification, water shutoff of those accounts/connections will be necessary to protect the water system.

The City has been offering monthly tours of the Cypress Water Production Facility. One tour was conducted in October and a total of 6 community members toured the facility.

Residents who are interested in touring the facility may sign up for a tour at https://www.lomitawater.com/water-tours/.

CIP Update – Construction Phase

Cypress Water Production Facility (CWPF) Upgrade Project

The City's contractor RC Foster, with the oversight of the contract manager, AKM Consulting Engineers, is progressing on construction. Hazen and Sawyer continue to provide support for the permitting with the Division of Drinking Water (DDW). During this period, RC Foster worked on electrical components, the security camera system, and the data control system (SCADA).

247th Street Area Watermain Project

This project consists of abandoning a watermain that runs north and south within private properties crossing 246th Street, 247th Street, 247th Place, and 248th Street. The proposed new water main will extend from 246th Street beyond the City boundaries, looping within the City of Los Angeles right of way and along Western Avenue (which is Caltrans' right of way), and connecting back to the City of Lomita along 247th Street, 247th Place, 248th Street and Lomita Blvd. This project consists of constructing approximately 3,300 linear

feet of PVC water pipeline and appurtenances (fire hydrants, valves, services, and fittings). The existing pipeline located in private property will be abandoned.

Design of the project was awarded to Onward Engineering in November 2021, and design is complete. City Council approved the project and authorized release for bidding, which will take place later this calendar year.

Emergency Generator

This project consists of installation of an emergency generator that will be capable of servicing the Appian Way Pump Station as needed. The design of this project was completed by AEPC Group in June 2023, and the City awarded the construction contract to Blue Ridge Mechanical, Inc.

This project consists of 1) The City directly procuring the permanent generator and load bank from Gen-Tech, 2) The City directly renting a temporary generator from United Rental and 3) A construction contract with Blue Ridge Mechanical Inc. for installation and testing. The short-term rental generator from United Rental was mobilized and included the air permit (through SCAQMD) for the rental unit. Since the Gen-Tech permanent generator was delivered in October, the short-term rental has been removed from the site. The load bank has a longer lead time and is not scheduled to be delivered until February 2024.

The City applied for a temporary air permit (through SCAQMD) for the permanent generator and has received the temporary permit.

CIP Update - Design Phase

Narbonne Avenue Water Replacement and Street Rehabilitation Project

This project consists of constructing approximately 1,600 linear feet of PVC water pipeline on Narbonne Avenue from PCH to the southern end of the City of Lomita. The proposed water main will be a new 8-inch PVC water main to provide improved flow, pressure, and fire protection. This new water main will replace the existing 1928 6-inch and 8-inch water main.

The design of the project was awarded to David Evans and Associates (DEA) in December 2022. DEA submitted the 60% preliminary design package, and City

Engineering, Streets, and Water staff reviewed and approved. DEA is awaiting Caltrans permit approval for potholing near PCH and is working on the 90% design package.

<u>Street Reconstruction – Zone G</u>

This project consists of overlaying and reconstructing certain streets in Zones G (just north and south of Lomita Boulevard and east of Eshelman Avenue), as detailed in the Pavement Management Program (PMP). This project includes significant repairs and resurfacing of streets where slurry seal would not be sufficient to extend the life of the street.

The design of the project was awarded to David Evans and Associates (DEA) in July 2022. Construction is programmed for Spring-Summer 2024. Extensive field investigation and sampling have taken place to evaluate the road condition on the 17 streets included in this project, and the City has received the related technical reports. In addition, DEA has identified and provided preliminary cost estimates for curb ramps that require upgrades in the project zone. DEA has completed the 90% plans, specification, and estimates for City staff review.

The project design has been awarded to BOA Inc., and their team has visited the site and provided preliminary drawings for the restroom layout to meet accessibility design requirements. BOA's subcontractor visited the site and collected samples to assess the presence of asbestos and lead paint. The City is awaiting lab results, and completion of design follow.

CIP Update – Studies and Pre-Design Phase

New Groundwater Well Feasibility Study

The purpose of this study was to identify preliminary locations where construction of a new groundwater well is feasible. The installation of a new well would minimize the City's long-term reliance on imported water and provide a contingency well in case of future adverse impacts to Lomita Well No. 5. The City currently has groundwater rights of 1,352-acre feet (ac-ft) in the West Coast Basin, and in its last year of normal operations, CY 2018, Well No. 5 only pumped 561 ac-ft of groundwater.

In October 2023, the consultant, Stetson Engineering, Inc. submitted the final report, and City Council received and filed the report. Staff has worked with the City's grant consultant to prepare an application for funding of the next phase.

Sewer System Master Plan

The Sewer System Master Plan will identify any sewers that are undersized or need replacement. The contract to prepare a sewer system master plan was awarded to Psomas in July 2023. The team is establishing a sewer system model based upon land/parcel usage, data from Los Angeles County Department of Public Works on sewer maintenance, and flow monitoring conducted in the sewer to validate the model. The two-week-long flow monitoring will be performed in November 2023.

Tom Rico Center Gymnasium & Railroad Museum Building Roof Replacement Project
This project consists of design and installation of new roof skin for the two buildings, upgrade of signs at the Railroad Museum, inspection, and test/treat the roof and the buildings for the termite infestation. The design contract has been awarded to BOA Inc., who will begin the preparation of drawings, specification, and estimates for construction.

<u>Downtown Lomita Multi-Benefit Stormwater Project</u>

This project will include the design and construction of stormwater features along Lomita Boulevard and Narbonne Avenue to mitigate local and downstream flood risk, improve water quality, and reduce the heat island effect in the downtown Lomita area. In addition, the project includes features to beautify the neighborhood and promote healthy transportation and recreation. The Project will divert 5.6 acre-feet of stormwater from three LACFCD storm drains in the downtown area of Lomita to an infiltration gallery and a series of drywells. Additional features include bioretention areas, pervious pavement, planting of vegetation with drought-tolerant, native plants, 45 new shade trees, 10 benches, bike locking stations, educational signage, and a bike lane along Lomita Boulevard. The RFP for engineering design services for this project was posted on October 24, 2023 and proposals are due on November 21, 2023.

Engineering/Regulatory Updates

Encroachment Permit Review/Approval

For the month of October 2023, staff received and reviewed fourteen encroachment permit applications from various utility companies, contractors, and residents. Permits were issued to eight applicants. Public Works now has an on-line portal for encroachment permitting, available at https://lomitaca.viewpointcloud.com/categories/1081.

Stormwater

In October, the City released a request for proposals for stormwater/MS4 compliance support. Additionally, Public Works coordinated the annual training for stormwater compliance for City staff that are required to participate.

Public Works Field Operations Division (Parks/Street/Trees) Updates

Park staff crews removed two cement tables and pads, along with one light pole which will be relocated closer to the playground and the new tables in Hathaway Park. ^{*}The Governmental Accounting Standards Board (GASB) has established Statement No. 31 for setting investment valuation standards. We report the unrealized gain/(loss) monthly and book realized gain/(loss) at year end as a GASB 31 requirement.

GASB 31 is a reporting requirement that reports the "Fair Value" of investments held in our portfolio. Fair value is the amount at which a financial instrument (investment) could be exchanged in a current transaction between willing parties at current market prices. It is important to understand the relationship between prevailing interest rates and fixed coupon investments. As market interest rates fall, the "Fair Value" of held securities will rise (unrealized Gains). The opposite occurs as market interest rates rise (market prices of held investments will fall). It should be noted that investments held in the city pool are to be held until maturity so both gains and losses (unrealized) will not be taken.

TO: City Council Item No. 7j

FROM: Ryan Smoot, City Manager

PREPARED BY: Kathleen Gregory, City Clerk

MEETING DATE: November 21, 2023

SUBJECT: Resolution Authorizing the Destruction of Obsolete Records

RECOMMENDATION

Adopt Resolution.

BACKGROUND

On February 4, 2013, the City Council adopted Resolution No. 2013-05, establishing a Citywide Records Management Policy for Preservation, Protection, Retention and Legal Disposition of Records and Records Retention Schedule for all City Departments. The Records Retention Schedule is the City's most effective control to properly manage paper records. It is a carefully planned, systematic, and consistently written policy governing the period of retention, or the lifespan, of all types of records.

While the Records Retention Schedule contains the legal authority for the disposition of City records and demonstrates compliance with government regulations, it is an administrative tool only and does not preclude the necessity of obtaining approval from the City Council for the destruction of public records (California Gov't Code Section 34090 et seq.).

At this time, city departments have identified records that no longer have sufficient historical, legal, fiscal or reference value to retain in original form, and is requesting the City Council's authorization to destroy such records.

The proposed destruction follows the City's Records Retention Schedule and is consistent with Section 34090 of the Government Code of the State of California. Section 34090 provides for the destruction of any City record, document, instrument, book, paper, etc., without making a copy thereof, after the same is no longer required, if done with the approval of the City Council and the written consent of the City Clerk and City Attorney.

Section 34090 does not authorize the destruction of records affecting the title to real property or liens thereon, court records, records required to be kept by statute, records less than two years old, and the minutes, ordinances, or resolutions of the City Council.

Records proposed for destruction were carefully reviewed by staff and approved by the corresponding department directors. In addition, and in accordance with law, the City Attorney has reviewed the list of records and has given consent for destruction of the records.

FROM: Ryan Smoot, City Manager

PREPARED BY: Carla Dillon, P.E., Public Works Director

MEETING DATE: November 21, 2023

SUBJECT: Blue Ridge Mechanical Inc. Change Orders for Appian Way

Emergency Generator Project

RECOMMENDATION

1) Approve contract Change Order No. 2 for Blue Ridge Mechanical Inc. for additional work required for the installation of the Emergency Generator at the Appian Pump Station in the amount of \$2,096.00;

- 2) Approve contract Change Order No. 3 for Blue Ridge Mechanical Inc. for additional materials for the installation of the Emergency Generator at the Appian Pump Station in the amount of \$1,292.00; and
- 3) Authorize the Director of Public Works to approve Change Order No. 2; and
- 4) Authorize the Director of Public Works to approve Change Order No. 3.

BACKGROUND

The installation of the new Electric Generator for use at the Appian Pump Station is nearly complete. During construction, it was necessary to hook-up a temporary connection from a rental generator to the Pump Station to allow the stand-by generator to function. Additionally, it was necessary to electrically test the generator and provide staff training. Staff received Change Order No. 1 (CO #1) request from Blue Ridge Mechanical Inc. (Blue Ridge) in the amount of \$6,821.00 for the electrical connection, testing, and training. CO #1 was approved and is within the contract contingency amount.

One of the long lead-time items under the Appian Way Emergency Generator Project was procurement of the permanent load bank, which is needed for testing. During the construction project, staff learned that a load bank may be rented during the annual-required testing, and the City may forego purchase. Canceling the purchase of the load bank would provide approximately \$60,000 purchase cost savings. Change Order No. 2 (CO #2) is for mobilization of a load bank and testing the new generator in the amount of

\$2,096.00. The annual expense for a rental load bank is expected to be less than \$500, when provided by a generator maintenance company as part of annual servicing.

Change Order No.3 (CO #3) allows for the purchase of the appropriate cable to connect the new generator to the building. A cable was not originally specified in the project documents, and the City has retained the cable provided from the rental generator, which has a monthly fee for rental. Staff received two quotes for the cable, one from Blue Ridge and the other from United Rentals. Blue Ridge was the lowest in the amount of \$1,292.00. Connecting the permanent/owned generator allowed the city to return the rental generator early providing an expected savings of at least \$9,000.

Due to the expedited installation of the permanent/owned generator and option to utilize a rental load bank going forward, the City will recognize significant cost savings. Staff recommends approval of these change orders in order to complete the project ahead of schedule and under budget.

FISCAL IMPACT

Although the contract expenses will increase for Blue Ridge, the overall expenses are expected to be less than the Council approved overall project budget. City Council originally approved an agreement with Blue Ridge for \$58,337.00. With these Change Orders, the authorized expense with Blue Ridge will be \$60,937.00.
