Hauler representative completing form (print name):		
Waiver Request: <input type="checkbox"/> AB 341 Recycling <input type="checkbox"/> SB 1383 Organics Date of site visit: _____		

Assembly Bill 341 established a statewide recycling goal of 75% by 2020. This law requires California commercial or public entities that generate four or more cubic yards of solid waste per week, and multifamily dwellings of five or more units, to arrange for commercial commingled recycling services (blue recycle container). As of January 1, 2022, all businesses and multifamily dwellings (of all sizes) are required to follow the SB 1383 regulations.

Senate Bill 1383 requires that all businesses and multi-family complexes have commercial commingled recycling services (blue recycle container) and organics recycling services (green organics container). Organic waste is defined as: food waste, green waste, landscape, and pruning waste, nonhazardous wood waste, and food-soiled paper waste. All organics can be combined together and placed in a green organics container to be serviced.

Reason for Waivers (complete all that apply and provide additional information as required):

- Third-Party or Self-Hauling of Organic waste and/or Commercial Recyclables. A person or organization can collect all Organics and/or Commercial Recyclables from this location, at no cost.** *This includes food donations to people or animals. Please provide a description of the material, the amount generated each week (weight in pounds), and name of collector or organization. If you use this option, your business will also need to fill out Third-Party form and report tonnages.*

Material type	Pounds per week	Name of Company, Address, Contact Name, And Phone #	Activity Conducted with Material (ex. Composted or Feed)
