What is Dial-A-Ride?

The City of Lomita sponsors a taxicab program for senior and disabled residents of Lomita. The Lomita Dial-A-Ride program has been established in cooperation with Administrative Services CO-OP (United Checker Cab).

Service is provided on a round-the-clock basis to and from any point within the service area and to and from any of the twenty two (22) satellite points listed on the back.

How Do I join

Residents 60 years of age and older or disabled persons 18 years old or older are eligible. At the time of application, you must show proof of Lomita residency, age, and/or disability. Identification card from California DMV. If disabled, you are eligible if you have an impairment or disability that prevents you from driving a motor vehicle. (Doctor's note required). Disabled passengers MUST be able to transfer independently and have a collapsible wheelchair or other assisting device weighing less than 25 pounds.

Where Can I go

The service area is limited to trips within it and listed satellite points. Anything beyond the designated service area requires an additional fee.

How and Where to Purchase Trips

Each participant is eligible to purchase a maximum of forty (40) one-way trips per month. When trips are purchased, they are credited to a personalized Dial-A-Ride Swipe Card.

Dial-A-Ride Fare

All Dial-A-Ride passengers will be issued an identification (ID) card, which must be presented when using the service. A co-pay fare of \$1.00 per one-way trip is required and must be paid directly to the driver. For your convenience, drivers accept cash, major credit cards, and debit cards.

Please note, a \$5.00 fee will be charged to replace any lost or stolen ID cards.

Ready to Ride?

- Call the number designated for Lomita Dial-a-Ride: 1-866-424-1678. Provide your name, location, destination, and the number of passengers in your party.
- When the taxi arrives, present your swipe card to the driver, and enjoy the ride! Once you've reached your destination, your card will be swiped again to end your trip.
- Trips made outside the service area (excluding satellite points) which are not covered under the program will be charged as follows:

The driver will take the patron to the service area limit, pull over, and swipe the card to end the Dial-a-Ride trip. The meter will be reset, and the patron will be required to pay by cash or with their own personal credit card any charges from the service area limit to their destination.

The metered fare to the destination that the participant will be required to pay, which is not covered by the swipe card, will also include a trip origination fee (minimum \$3.10).

The same rules apply for pick-ups originating from outside the service area with a destination inside the service area.

Rules for Dial-A-Ride

- Drivers will not assist with packages in excess of 25 pounds due to State Law.
- Drivers will not wait for passengers for continuation or return trips.
- Tipping drivers is not required, expected, or encouraged.
- Only eligible residents of the City of Lomita may participate.
- Each participant will be issued their own personal swipe card.
 Cards may not be shared under any circumstances.
- All participants are required to have a picture ID and present a swipe card to the cab driver for all rides.
- Each one-way trip costs \$1.00. Trips purchased for \$1.00 allow the rider to travel one way from one pick-up point to one destination.
- The City reserves the right to limit the number of ride credits purchased per month.
- Be prompt at the pick-up location.
- Lost or stolen swipe cards must be reported immediately to the City Clerk's Department. We will cancel your card and order a new one, which will take 7-10 business days.
- The availability of taxi cabs determines how soon your ride arrives.
- Any violation of the Dial-A-Ride program rules will result in the termination of ridership privileges.
